

Client Announcement

We are now trialling an appointments only system during the scheduled weekend surgeries at Congleton and Biddulph. This means that we no longer have the open surgeries. We hope ultimately this will provide a better service and reduced waiting times. If your pet requires attention during the weekend please call first to book an appointment.

We anticipate that initially there may be a transition period where some clients turn up for the open surgery as well and we would ask for your patience if there are longer waiting times during this time.

Emergencies will obviously still take priority as they do during the week.

We appreciate your co-operation and support during the transition and welcome any feedback.

Many thanks

Charter vets
